

SSW Works: A Virtual Learning Environment for
Occupational Skin Cancer Prevention Ph II

NCT05774600

INFORMED CONSENT FORM

August 15, 2025

*This study was deemed exempt from full board review by the Institutional Review Board (IRB); consequently, formal informed consent was waived in favor of participants reviewing the following study information document.

STUDY INFORMATION

You are being asked to complete a survey as part of a study on workplace sun safety. The program is called **Go Sun Smart at Work**. It is sponsored by the National Cancer Institute and conducted by Klein Buendel, Inc. People from different workplaces across the country are taking part in this study. The survey aims to find out if the program teaches people how to prevent heat illness and skin cancer. Your workplace has agreed that you may take part in this program.

The survey will ask you questions about sun safety at work and what you do to protect yourself. You may also be asked to provide your name, title, department, and email address. Your answers will not be linked to your name. Your answers will not be shared with anyone at your workplace. The data will only be used to see how the program is helping people. The data will be stored safely on Klein Buendel's servers.

It is entirely up to you whether you want to complete the survey. You don't have to answer any question you don't feel comfortable with. There are no risks related to this research. You won't face any consequences if you decide not to participate or stop the survey.

If you complete the survey, you can get a \$20 online Amazon gift card. Just provide your email address at the end of the survey to receive it. However, we understand if you can't accept the gift card at your workplace. If you have any questions, please contact the Study Director.
