

Title: Virtual Reality Intervention (VR-GINSO) for Reducing Aggression in Young Offenders

NCT Number: Pending

Date: 29 January 2026

Document: Consent Form for Participants – English

INFORMED CONSENT PARTICIPANTS

I, _____, confirm that:

I have read the information provided in the study entitled "Virtual reality-based biopsychosocial intervention program for youth in conflict" and I understand what it consists of.

I understand that this study seeks to analyze how different psychological interventions are effective in treating aggression and that during the study, self-report tests will be conducted and saliva samples will be collected to determine hormone levels.

It has been explained to me that my participation is voluntary and that I can decide whether or not to participate or withdraw at any time without any problems.

I know that my personal data will be protected and used confidentially. I also understand that the results of the study will be coded so that my identity will remain anonymous.

I understand that I do not have to pay anything to participate and that I will not receive any financial compensation for doing so.

I have been given the opportunity to ask questions, and I know that I can contact those responsible for the study if I have any further questions.

I agree to participate in this study.

Signed:

Mr./Ms. _____
