Document date: 21st October 2024

Informed Consent of the Test Subject to Participate in the Project

Name of project: Acute effect of caffeine on the motor performance of football players

Name and surname of subject.....

Date of birth of subject .....

I, the undersigned, hereby honestly declare and confirm with my signature that, when providing information related to my participation in the testing within the above-mentioned project, I have not concealed from the person conducting the testing any serious illness or injury for which I have undergone treatment in the past, which was diagnosed to me in the past, or which I currently have.

I have been informed that the information provided about my health condition, as well as the results of the tests and examinations, will be used for research purposes in accordance with the law on the protection of personal data. I have been informed by the project investigator about the purpose of the testing and the testing protocol, as well as any risks and consequences related to it. This explanation was given to me in a clear, considerate manner, without pressure, and with the opportunity and sufficient time to make a free decision.

I have been informed of the possibility to withdraw my consent to participate in the study. I may withdraw my consent at any time, without having to justify my decision.

With my signature, I confirm that I voluntarily consent to participate in the testing within the above-mentioned project.
