Patient Consent Form

I, the undersigned,, after being thoroughly informed by the Anesthesiologist about the nature of the study in which I am being asked to participate, which concerns the investigation of hemodynamic factors in the left and right lateral positions during one-lung ventilation, agree to participate in this study. The anesthetic techniques to be used are appropriate for this specific case, and the medications that will be administered are approved by the National Organization for Medicines.

I have also been informed that the above study takes into account the Declaration of Helsinki for conducting medical research on humans, that it has been approved by the competent scientific bodies of the hospital, and that it is completely safe for me. Furthermore, the protection of personal data is ensured.

In light of all the above, I agree to participate in the research.
