

**Title: mFLOT Chemotherapy as First-line Treatment in GC**

**NCT: NCT03606928**

**Date:2018/05/02**

#### **Statistical analysis**

The primary endpoint was to determine the MTD and RD for modified FLOT regimen. The secondary endpoints were response rate (RR), PFS and safety. PFS was estimated *via* the Kaplan-Meier method. Statistical analysis was performed by SPSS software (vision 22.0).
