

Title: A study to explore the feasibility and efficacy of Group Traumatic Episode Protocol (GTEP) for reducing trauma symptoms following a traumatic birthing experience.

NCT Number: NCT07246356

Document Date: 19/09/2025

Version: 1.2

IRAS ID: 341922

**FACILITATOR CONSENT FORM**

Title of Project: *A study to explore the feasibility and efficacy of Group Traumatic Episode Protocol (GTEP) for reducing trauma symptoms following a traumatic birthing experience.*

Name of Researcher: Grace Rodgers

Please initial box

1. I confirm that I have read the facilitator information sheet (version 1.3, dated 19.09.2025) for the above study. I have had the opportunity to consider the information, ask questions and have had these answered satisfactorily.

☐

2. I understand that my participation is voluntary and that I am free to withdraw at any time without giving any reason. I understand that should I withdraw before the study has finished; any data already collected may be used in data analysis.

☐

3. I understand that the information collected from me will be used to support other research in the future and may be shared anonymously with other researchers.

☐

4. I understand that my anonymised data will be used for dissemination in publications (e.g., within scientific journals/conference abstracts). This might include anonymised quotes.

☐

5. I agree to take part in the above study.
