

**Beyond eosinophils: proteomics to identify potential biomarkers of organ damage
and response to MEPOLIZUMAB in EGPA**

Protocol Number: **14918**

Compound Number or Name: **BEOMICS study**

Brief Title: **Beyond EOsinophils: proteoMICS to identify potential biomarker of organ
damage and response to MEPOLIZUMAB in EGPA**

NCT number: **n.a.**

Date of the document: **12 february 2023**
