

Effect of vitamin D supplementation on Graves' disease: The DAGMAR trial

Patient Consent Form

First approval January 25, 2013.

English translation August 16, 2022

ClinicalTrials.gov Identifier: NCT02384668

(S3) Informed consent for participation in a health science research project

Title of research project: DAGMAR

Declaration from the study participant

I have received written and verbal information and I know enough about the purpose, method, advantages and disadvantages to agree to participate

I know that participation is voluntary and that I can always withdraw my consent without losing my current or future rights to treatment.

I consent to participate in the research project and have received a copy of this consent form and a copy of the written information about the project for my own use

Name of study subject: _____

Date: _____ Signature: _____

Do you wish to be informed about the results of the research project and its potential implications for yourself?

Yes: _____ No: _____

Statement from the person providing the information:

I declare that the study participant has received oral and written information about the research project.

In my opinion, sufficient information has been provided for a decision to be made regarding participation in the trial.

The name of the person who submitted the information: _____

Date: _____ Signature: _____

Project identification: The Central Denmark Region Committees on Health Research Ethics, registration number 1-10-72-568-12

Standard declaration of consent prepared by the Scientific Ethics Committee System Denmark, December 2011
