

Impact of Maxillomandibular Advancement Upon the Pharyngeal Airway Volume and the Apnea-hypopnea Index in the Treatment of Obstructive Sleep Apnea.

**INFORM CONSENT VERSION 1.0
OCTOBER 30, 2017**

RUNNING TITLE: OSAS-OS - Maxillomandibular Advancement in the Treatment of Obstructive Sleep Apnea

NCT No: NCT03796078

Anexo 4

Main Researcher: Hernández-Alfaro F.

secondary researchers: Giralt-Hernando M, Valls-Ontañón A.

Title: Impact of Maxillomandibular Advancement Upon the Pharyngeal Airway Volume and the Apnea-hypopnea Index in the Treatment of Obstructive Sleep Apnea.

NCT: NCT03796078

INFORMED CONSENT

I, Mr./Ms.:

- I have received verbal information about the study and have read the attached written information, of which I have received a copy.
- I have understood what has been explained to me.
- I have been able to discuss the study and ask questions to the responsible professional.
- I give my consent to participate in the study and understand that my participation is entirely voluntary.
- I understand that I may withdraw at any time without affecting my future medical care. By signing this informed consent form, I consent to my personal data being used as described in this consent form, which complies with the provisions of the Organic Law 15/1999, of December 13, on Personal Data Protection (LOPD), in force in Spain, and which specifies the ARCO rights (access, rectification, cancellation and opposition). I understand that I will receive a copy of this informed consent form.
