

## **Statistical Analysis Plan**

**Study Title: Long-term Telerehabilitation for Patients With Stroke**

**ClinicalTrials.gov Identifier: NCT03460587**

**November 22, 2020**

**Statistical analysis plan:** Data analysis used non-parametric statistical testing (JMP 13, SAS; Cary, NC). All analyses were two-tailed, with statistical significance set at  $p<0.05$  and no corrections made for multiple comparisons in this feasibility study.
