

Consent Form for Participants Able to Give Consent

Full Title of Project:

PRESIDE: Prospective study of antimicrobial RESistance in chronic lung Disease

IRAS no: 346303

Principal Investigator: Dr Anand Shah

Co-Investigators: Dr Aran Singanayagam; Dr Raju Misra

Please initial box

1. I confirm that I have read and understand the participant information sheet version dated for PRESIDE: Prospective study of antimicrobial RESistance in chronic lung Disease) and have had the opportunity to ask questions which have been answered fully.	
2. I understand that my participation is voluntary, and I am free to withdraw at any time, without giving any reason and without my legal rights nor treatment / healthcare being affected.	
3. I agree to my blood, sputum, stool and nasal samples being used to undertake genetic research which may have the potential to generate data that can be tracked back to me.	
4. I understand that sections of any of my medical notes may be looked at by responsible individuals from Imperial College London, from the NHS Trust or from regulatory authorities where it is relevant to my taking part in this research.	
5. I understand that tissue samples and / or data collected from me are a gift donated to Imperial College and that I will not personally benefit financially if this research leads to an invention and/or the successful development of a new test, medication treatment, product or service.	
6. I consent to take part in PRESIDE: Prospective study of antimicrobial RESistance in chronic lung Disease	

OPTIONAL CLAUSES	YES	NO
7. I give consent for a pseudoanonymised (i.e. coded) copy of prior radiological imaging (e.g. CT) performed of my lungs and stored for further analysis as part of the current study		
8. I give consent for information collected about me to be used to support other research or in the development of a new test, medication, medical device or treatment (delete as applicable) by an academic institution or commercial company in the future, including those outside of the United Kingdom (which Imperial has ensured will keep this information secure).		
9. I give consent for samples (blood, nasal, sputum, stool) collected about me to be used to support other research or in the development of a new test, medication, medical device or treatment (delete as applicable) by an academic institution or commercial company in the future, including those outside of the United Kingdom (which Imperial has ensured will keep this information secure).		
10. I give consent to being contacted about the possibility to take part in other research studies.		
11. I agree to surplus samples after analysis to be stored at Imperial College London for use in future approved research in lung disease, antimicrobial resistance or closely related topics.		

Name of participant

Signature

Date

Name of person taking consent
(if different from Principal Investigator)

Signature

Date

1 copy for participant; 1 copy for Principal Investigator; 1 copy for hospital notes
To ensure confidence in the process and minimise risk of loss, all consent forms
must be printed, presented and stored in double sided format
