

# Participant Information and Informed Consent Form

**Official Study Title:**

Erectile Function After Percutaneous Coronary Intervention in Myocardial Infarction and Non-Infarction Patients: A Prospective Comparative Study

**ClinicalTrials.gov Identifier:**

NCT: Not yet assigned

**Version Date:**

07 November 2025

**Principal Investigator:**

Dr. Timucin Sipal, MD  
Department of Urology  
Kocaeli University Faculty of Medicine  
Kocaeli, Türkiye

# Participant Information and Consent Form

**Study Title:** Erectile Function After Percutaneous Coronary Intervention in Myocardial Infarction and Non-Infarction Patients: A Prospective Comparative Study.

**Principal Investigator:** Dr. Timucin Sipal, Department of Urology, Kirikkale University Hospital

**Secondary Investigator:** Dr. Caglar Alp, Department of Cardiology, Kirikkale University Hospital

**Ethics Committee Approval Date:** 07 November 2025

## 1. Invitation to Participate

You are being invited to take part in a research study because you recently had a heart procedure called percutaneous coronary intervention (PCI). Before you decide, please read this information carefully. You may ask any questions you wish.

## 2. Purpose of the Study

This study aims to understand how heart disease and its treatment affect male sexual (erectile) function. We also want to see whether changes in sexual function can give early clues about the condition of the heart after PCI.

## 3. What Will Happen if You Take Part

If you agree to join, you will be asked to complete questionnaires including the International Index of Erectile Function (IIEF-5), Beck Depression Inventory (BDI), and Fear of Cardiac Recurrence and Progression Scale (FCRP) at baseline, 3 months, and 6 months after PCI.

## 4. Risks and Discomforts

There are no physical risks involved. Some people may feel embarrassed when answering questions about sexual life. You may skip any question.

## 5. Possible Benefits

There is no direct medical benefit, but results may help improve future patient care.

## 6. Confidentiality

All information will be kept confidential and used only for research purposes.

## 7. Voluntary Participation

Participation is voluntary, and you may withdraw at any time without affecting your care.

## 8. Contact Information

Dr. Timucin Sipal  
Email: drtimucin@hotmail.com  
Phone: +90 554 843 0218

## 9. Consent Statement

I have read and understood the information above and voluntarily agree to participate.
