

Evaluation of a Remote Training Strategy for School Personnel

NCT05034198

August 17, 2022

ASSENT TO PARTICIPATE IN A RESEARCH STUDY: EVALUATION OF A REMOTE TRAINING STRATEGY FOR SCHOOL PERSONNEL

A research study is a way to learn more. We are doing a research study to learn the best way to help the people in your school support students at school who may be struggling with their behavior or emotions.

There are some things about this study you should know. If you decide you want to be in this study, you will either meet at school with a group of a few students each week or one-on-one with a teacher or counselor. The teacher or counselor will teach you about different ways to deal with feelings you may have. The groups will meet about 8-12 times your lunch or another time when you are not doing schoolwork. If the group meets during your lunch time, then you will be allowed to eat lunch during the group. The conversations during each group meeting will be recorded. We will use the recording to help the adult who is running the meeting do a good job. Your teachers will not hear the recordings, and the recordings won't make a difference in your grades. If you are meeting one-on-one, you will check in with a teacher twice a day for a few months.

Some of the things you talk about in the group and some of the questions you will be asked might make you upset or uncomfortable. We will try to help you and remind you that you do not have to answer any more questions if you do not want to. There are no right or wrong answers. We just want to learn more about you and how the group might be helping you.

You may benefit from this study. A benefit means that something good happens to you. We think being in this study might help you learn more about yourself and your feelings. You could also learn ways to feel a little better.

When we are finished with this study, we will write a report about what we learned so that other people can learn about it too. This report will not include your name or even mention that you were in the study.

You do not have to be in this study if you do not want to be. Even if your parent signs you up, you can still tell us if you do not want to participate. If you decide to stop after we begin, that's okay too. No one will be upset if you decide not to do this study. You may ask questions about the study at any time.

Do you have any questions? If you decide you want to be in this study, please tell me and I will sign my name showing you want to be in the study. If you are not sure about something in the study or you think of a question later, your parents can call the study doctor, Dr. Ricardo Eiraldi at 215-590-7759. You may also talk to your teacher or school principal about the study. If you decide you want to be in this study, please let me know.

Documentation of Child Assent to Take Part in this Research Study

I have explained this study and the procedures involved to _____ in terms he/she could understand and that he/she freely assented to take part in this study.

Person Obtaining Assent

Signature of Person Obtaining Assent

Date

CHOP IRB#: IRB 21-018863

Effective Date: 9/20/2022

Expiration Date: N/A
